On-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic delivery order are available through GSA Advantage!™, a menu-driven database system. The INTERNET address GSA Advantage!™ is: <http://www.GSAAdvantage.gov>.

For more information on ordering from Federal Supply Schedules click on the FSS Schedules button at fss.gsa.gov.

GeomorphIS Environmental and GIS Services

"Information Solutions for Environment and Infrastructure"

GeomorphIS is an environmental planning and information technology consultancy based in San Diego, California. We provide an array of environmental and infrastructure data acquisition, analysis, management, and reporting services to government and commercial clients. Services include:

Environmental Planning and Documentation Services

- Project management, coordination, and staffing
- Natural resources / watershed planning and regulatory compliance
- Environmental impact assessment and documentation (NEPA)
- Hydrological, geological, cultural, and ecological surveys and studies
- Environmental mitigation, planning, monitoring, and reporting

Geographic Information Services

- Geographic Information System (GIS) services and implementation
- Environmental and natural resources geospatial analysis and mapping
- GIS training and staffing
- Geospatial software sales, including ESRI products
- Spatial database standards, design and implementation
- Demographic analysis and mapping

GeomorphIS is a HUBZone, Woman Owned Small Business providing services under Federal NAICS codes 541620 (Environmental Consulting Services), 541370 (Surveying and Mapping Services), and 541690 (Other Scientific and Technical Consulting Services), among others.

The Service Contract Act (SCA) is applicable to this contract and it includes SCA applicable labor categories. The prices for the indicated (**) SCA labor categories are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCA matrix. The prices offered are based on the preponderance of where work is performed and should the contractor perform in an area with lower SCA rates, resulting in lower wages being paid, the task order prices will be discounted accordingly.

Description of Labor Categories

Labor Category	Description
Project Manager II	<p>Functional Responsibilities: Manages one or more large projects or task orders, and serves as a key contact with the government client. Responsible for general contract compliance, staffing and resource allocation, scheduling, product quality assurance, and subcontractor and vendor management. In charge of day-to-day project activities, budget, and reporting. May also be a senior professional in charge of technical aspects of one or more projects.</p> <p>Minimum Years of Experience: At least 7 years experience in project management and implementation.</p> <p>Minimum Educational Requirements: At least a BA/BS degree or equivalent. An MA/MS degree or equivalent post-graduate degree may be substituted for 2 years of experience.</p>
Project Manager I	<p>Functional Responsibilities: Manages one or more related projects or task orders, and serves as a contact with the government client. Responsible for general contract compliance, staffing and resource allocation, scheduling, product quality assurance, and subcontractor and vendor management. In charge of day-to-day project activities, budget, and reporting. May also be a senior professional in charge of technical aspects of one or more projects.</p> <p>Minimum Years of Experience: At least 5 years experience in project management and implementation.</p> <p>Minimum Educational Requirements: At least a BA/BS degree or equivalent. An MA/MS degree or equivalent post-graduate degree may be substituted for 2 years of experience.</p>
Scientist / Planner V	<p>Functional Responsibilities: Provides principal-level professional services and leadership in areas of scientific or planning expertise. Plans, oversees, and implements technical aspects of projects and task orders, working closely with client and team members. Supervises subordinate professional and technical staff, and subcontractors.</p> <p>Minimum Years of Experience: At least 15 years professional experience conducting scientific and/or planning projects. Generally considered a technical "expert" in professional field.</p> <p>Minimum Educational Requirements: At least an MA/MS degree or equivalent. A PhD or equivalent degree, or high-level technical expertise, may be substituted for 3 years experience. Twenty years of experience may be substituted for a MA/MS degree. Specific professional degree, certification, license, and permit requirements will be determined on a case-by-case basis.</p>
Scientist / Planner IV	<p>Functional Responsibilities: Provides independent professional services and leadership in areas of scientific or planning expertise. Plans, oversees, and implements technical aspects of projects and task orders, working closely with client and team members. Supervises subordinate professional and technical staff, and subcontractors.</p> <p>Minimum Years of Experience: At least 10 years professional experience conducting scientific and/or planning projects.</p> <p>Minimum Educational Requirements: At least a BA/BS degree or equivalent. An MA/MS or equivalent graduate degree, or high-level technical expertise, may be substituted for 2 years experience. Specific professional degree, certification, license, and permit requirements will be determined on a case-by-case basis.</p>
Scientist / Planner III	<p>Functional Responsibilities: Provides professional services in area of scientific or planning expertise or training. Implements technical aspects of projects and task orders, working closely with senior staff and team members. Supervises subordinate professional and technical staff.</p> <p>Minimum Years of Experience: At least 7 years professional experience conducting scientific and/or planning projects.</p>
